

WHAT IS CLAIMED IS:

1. A backpack, comprising:

a bag, having an accommodating space therein, and a latch device disposed on a side of said bag for selectively opening and closing said bag;

5 two shoulder straps, each having both ends respectively coupled to an upper section and a lower section on the rear side of said bag for carrying said bag on a user's back; and

two speakers, being built in both sides at the front of said bag and exposed to the exterior of said bag, and having a signal line for connecting said
10 two speakers and one of said speaker having a signal input line and a plug; thereby, said speakers releases sound when said plug is connected to said signal output socket of a portable player.

2. The backpack of claim 1, further comprising a power supply device, which is in a box form and connected to a main speaker by a power supply cable,
15 and said speaker having a built-in amplify circuit for controlling the power supply and sound volume by a control button protruded on the surface of said speaker.

3. The backpack of claim 2, wherein said power supply is a dry battery cell acting as the power.

4. The backpack of claim 2, wherein said power supply is disposed in said
20 accommodating space.

5. The backpack of claim 2, wherein said power supply is disposed in an accessory pocket disposed at the front of said bag.

6. The backpack of claim 1, wherein said shoulder strap is adjustable.

7. The backpack of claim 1, wherein said bag has a handle at its top.

25 8. The backpack of claim 1, wherein said two speakers are speaker members mounted on both side at the bottom of said accommodating space, and

a sound hole is cut from a bag cloth at the front of said bag, and a decorative panel is aligned with said speaker member to combine with said speaker member by passing a fixture through said decorative panel.

5 9. The backpack of claim 1, wherein said portable player is one selected from the collection of a CD player, a MP3 player, a MD player, a walkman, and a radio.

10 10. The backpack of claim 1, wherein said bag has a front cover for covering the front accessory pocket disposed thereunder.

10 11. The backpack of claim 10, wherein said front cover comprises a pocket selectively opened and closed by a latch for accessing a compact disk.

15 12. The backpack of claim 11, wherein said front cover has a string disposed on each side of said front cover and coupled to the rear side of said bag, and said each string has a buckle.

15 13. The backpack of claim 1, wherein said bag comprises an accessory pocket selectively disposed in said accommodating space and the exterior of said bag for accommodating and fixing said portable player.

20 14. The backpack of claim 13, wherein said accessory pocket is disposed on a side of the exterior of said bag and has a latch.

20 15. The backpack of claim 14, wherein said accessory pocket has a wire guider for passing through said signal line and plug of said earphone.

25 16. The backpack of claim 15, wherein said wire is formed by a plurality of cut lines in a radial form at the center of a film.

 17. The backpack of claim 1, wherein said bag comprises at least one binding tape selectively disposed inside and outside said bag for passing a wire.

25 18. The backpack of claim 17, wherein said binding tape is an adhesive

tape.

19. The backpack of claim 1, wherein said bag has a wire guider at its top.
